WHAT ELSE WE HEARD

While the community supports adding play equipment at Oakden Park, they also want a space for all ages and abilities, including recreational facilities like a basketball court and pathways linking to nearby amenities. Although these additions are not included in the current project scope, this feedback will shape future park planning opportunities.

WHAT'S NEXT?

The equipment that received the most votes will be ordered and depending on supply and delivery dates, installation is expected in late 2025.
